Upcoming work in the Carver neighborhood

Carver Substation

At Dominion Energy, we are committed to delivering safe, reliable energy and keeping our customers informed of upcoming projects. You are receiving this postcard because we are planning safety and security upgrades at our Carver Substation off West Moore Street in Richmond's Carver neighborhood.

MORE

In order to protect electric infrastructure and ensure reliable service for our customers, we plan to replace the existing chain link and barbed wire fence at Carver Substation. Additional security technologies will be installed to better deter, monitor, and detect potential threats. We will also build a new retaining wall at the rear of the station, facing the highway.

We anticipate construction will last from summer 2024 through spring 2025, pending any delays due to weather or permitting. We do not anticipate any interruptions to your electric service as a result of this project.

Thank you for your patience as we work to increase the safety and reliability of your electric service.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.
