Langley 230 kV Substation Project — Community Open House

Use your iPhone camera or the QR reader app on other smartphones to visit the project page on our website.

AT DOMINION ENERGY, we are committed to continually analyzing our energy infrastructure to provide safe and affordable electricity to the communities we serve. You are receiving this postcard because we are inviting you to a community open house to learn about a project in your neighborhood.

We are proposing to build a new 230 kilovolt (kV) substation named Langley next to our existing Peninsula Substation in the City of Hampton, Virginia. We need to rebuild short portions (0.1 to 0.4 miles) of the existing 115 kV and 230 kV electric transmission lines in the right of way to accommodate the new substation footprint. This project will improve electric reliability and resiliency for area residential and commercial customers.

At the open house, you can preview our plans and get answers to your questions from our subject matter experts. Drop by anytime between 5 p.m. and 7 pm. on Tuesday, March 14.

Unable to attend? We will post all information on our project website.

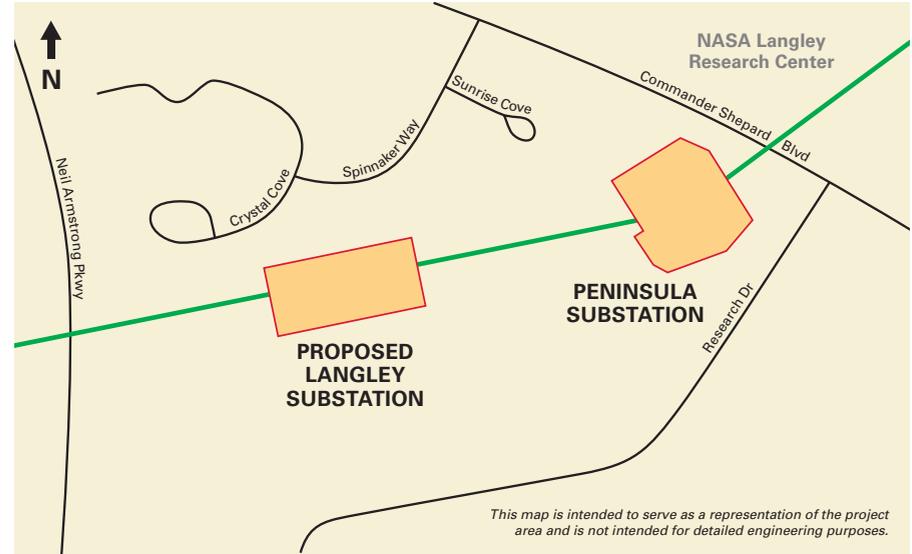

Your input will help us develop this project and minimize impacts to neighbors. We look forward to your participation.

COMMUNITY OPEN HOUSE

Tuesday, March 14, 2023
5 p.m. – 7 p.m.

(drop by anytime during these hours)

Hampton Roads
International Montessori School
23 Semple Farm Road
Hampton, VA 23666

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.
