## Mt. Storm-Valley 500 kV Rebuild Project

AT DOMINION ENERGY, we are committed to continually reviewing and analyzing our energy infrastructure to provide the most safe and reliable electric service. We are currently exploring options to address an aging electric transmission line located near your property. The line needs to be replaced to maintain reliability for our customers.

We are dedicated to finding the best solution for our long-term needs and the communities we proudly serve. We would like to hear from you before filing an application with the Virginia State Corporation Commission this fall. We invite you to attend one of our upcoming community open houses. There will be no formal presentations at these events. Instead, the format is open with various informational stations. Please feel free to attend as your time allows.

### CONTACT US

Visit our website at [DominionEnergy.com/mtstormvalley](http://DominionEnergy.com/mtstormvalley) for project updates. Or contact us by sending an email to [powerline@dominionenergy.com](mailto:powerline@dominionenergy.com) or calling 888-291-0190.

*This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.*

### WHAT:

This proposed project will rebuild the 500 kilovolt (kV) Mt. Storm-Valley Electric Transmission Line. No new right of way is needed.

### WHY:

The existing brown, weathering steel lattice structures have been in operation for over five decades and are nearing the end of their service life. The structures need to be replaced to ensure the integrity of the power grid. The new proposed galvanized steel lattice structures will be built in the same general location as the existing structures.

### WHERE:

The 64-mile line runs southeast from our Mt. Storm Power Station through West Virginia's Grant, Hardy and Pendleton counties and Virginia's Rockingham and Augusta counties.

## OPEN HOUSE EVENTS

**Tuesday**  
**Aug. 14, 2018**  
**5 – 7 p.m.**

Ottobine  
Elementary School  
8646 Waggy's Creek Road  
Dayton, VA 22821

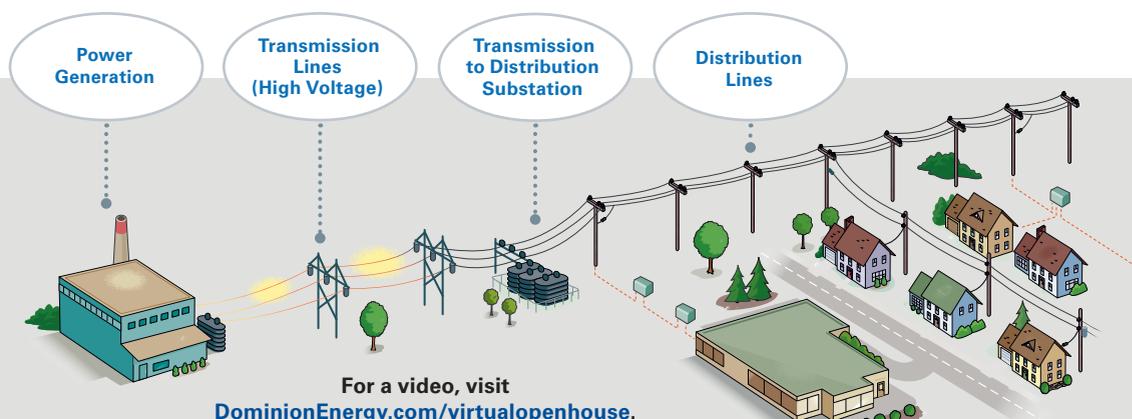

**Thursday**  
**Aug. 16, 2018**  
**5 – 7 p.m.**

North River  
Elementary School  
3395 Scenic Highway Road  
Mt. Solon, VA 22843

*Drop by anytime during these hours.*

### Delivering Clean, Safe, Affordable and Sustainable Energy

Transmission lines are the tall, high-voltage lines that carry electricity over long distances from power generation facilities to substations.
