Mt. Storm-Valley 500 kilovolt Rebuild Project — Update

Use your iPhone camera or the QR reader app on other smartphones to visit the project page on our website.

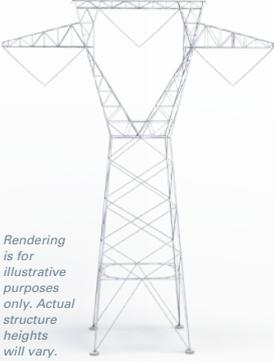

AT DOMINION ENERGY, we are committed to providing safe and reliable electricity to our neighbors. As announced earlier this year, we are currently preparing to address an aging electric transmission line located near your property. The line needs to be replaced to maintain reliability for our customers.

We originally planned to file an application with the Virginia State Corporation Commission in late 2018. However, we now anticipate filing in early 2019.

Thank you for your patience as we finalize our plans to rebuild this important line. We will continue to keep you updated on our progress.

CONTACT US

Visit our website at DominionEnergy.com/mtstormvalley for project updates. Or contact us by sending an email to powerline@dominionenergy.com or calling 888-291-0190.

Rendering is for illustrative purposes only. Actual structure heights will vary.

MATERIAL	AVERAGE HEIGHT
Galvanized Steel	118 feet

(replacing existing structures with an average height of 103 feet)
