Carroll County, Ohio

- Local permits, as necessary and applicable

Beaver County, Pennsylvania

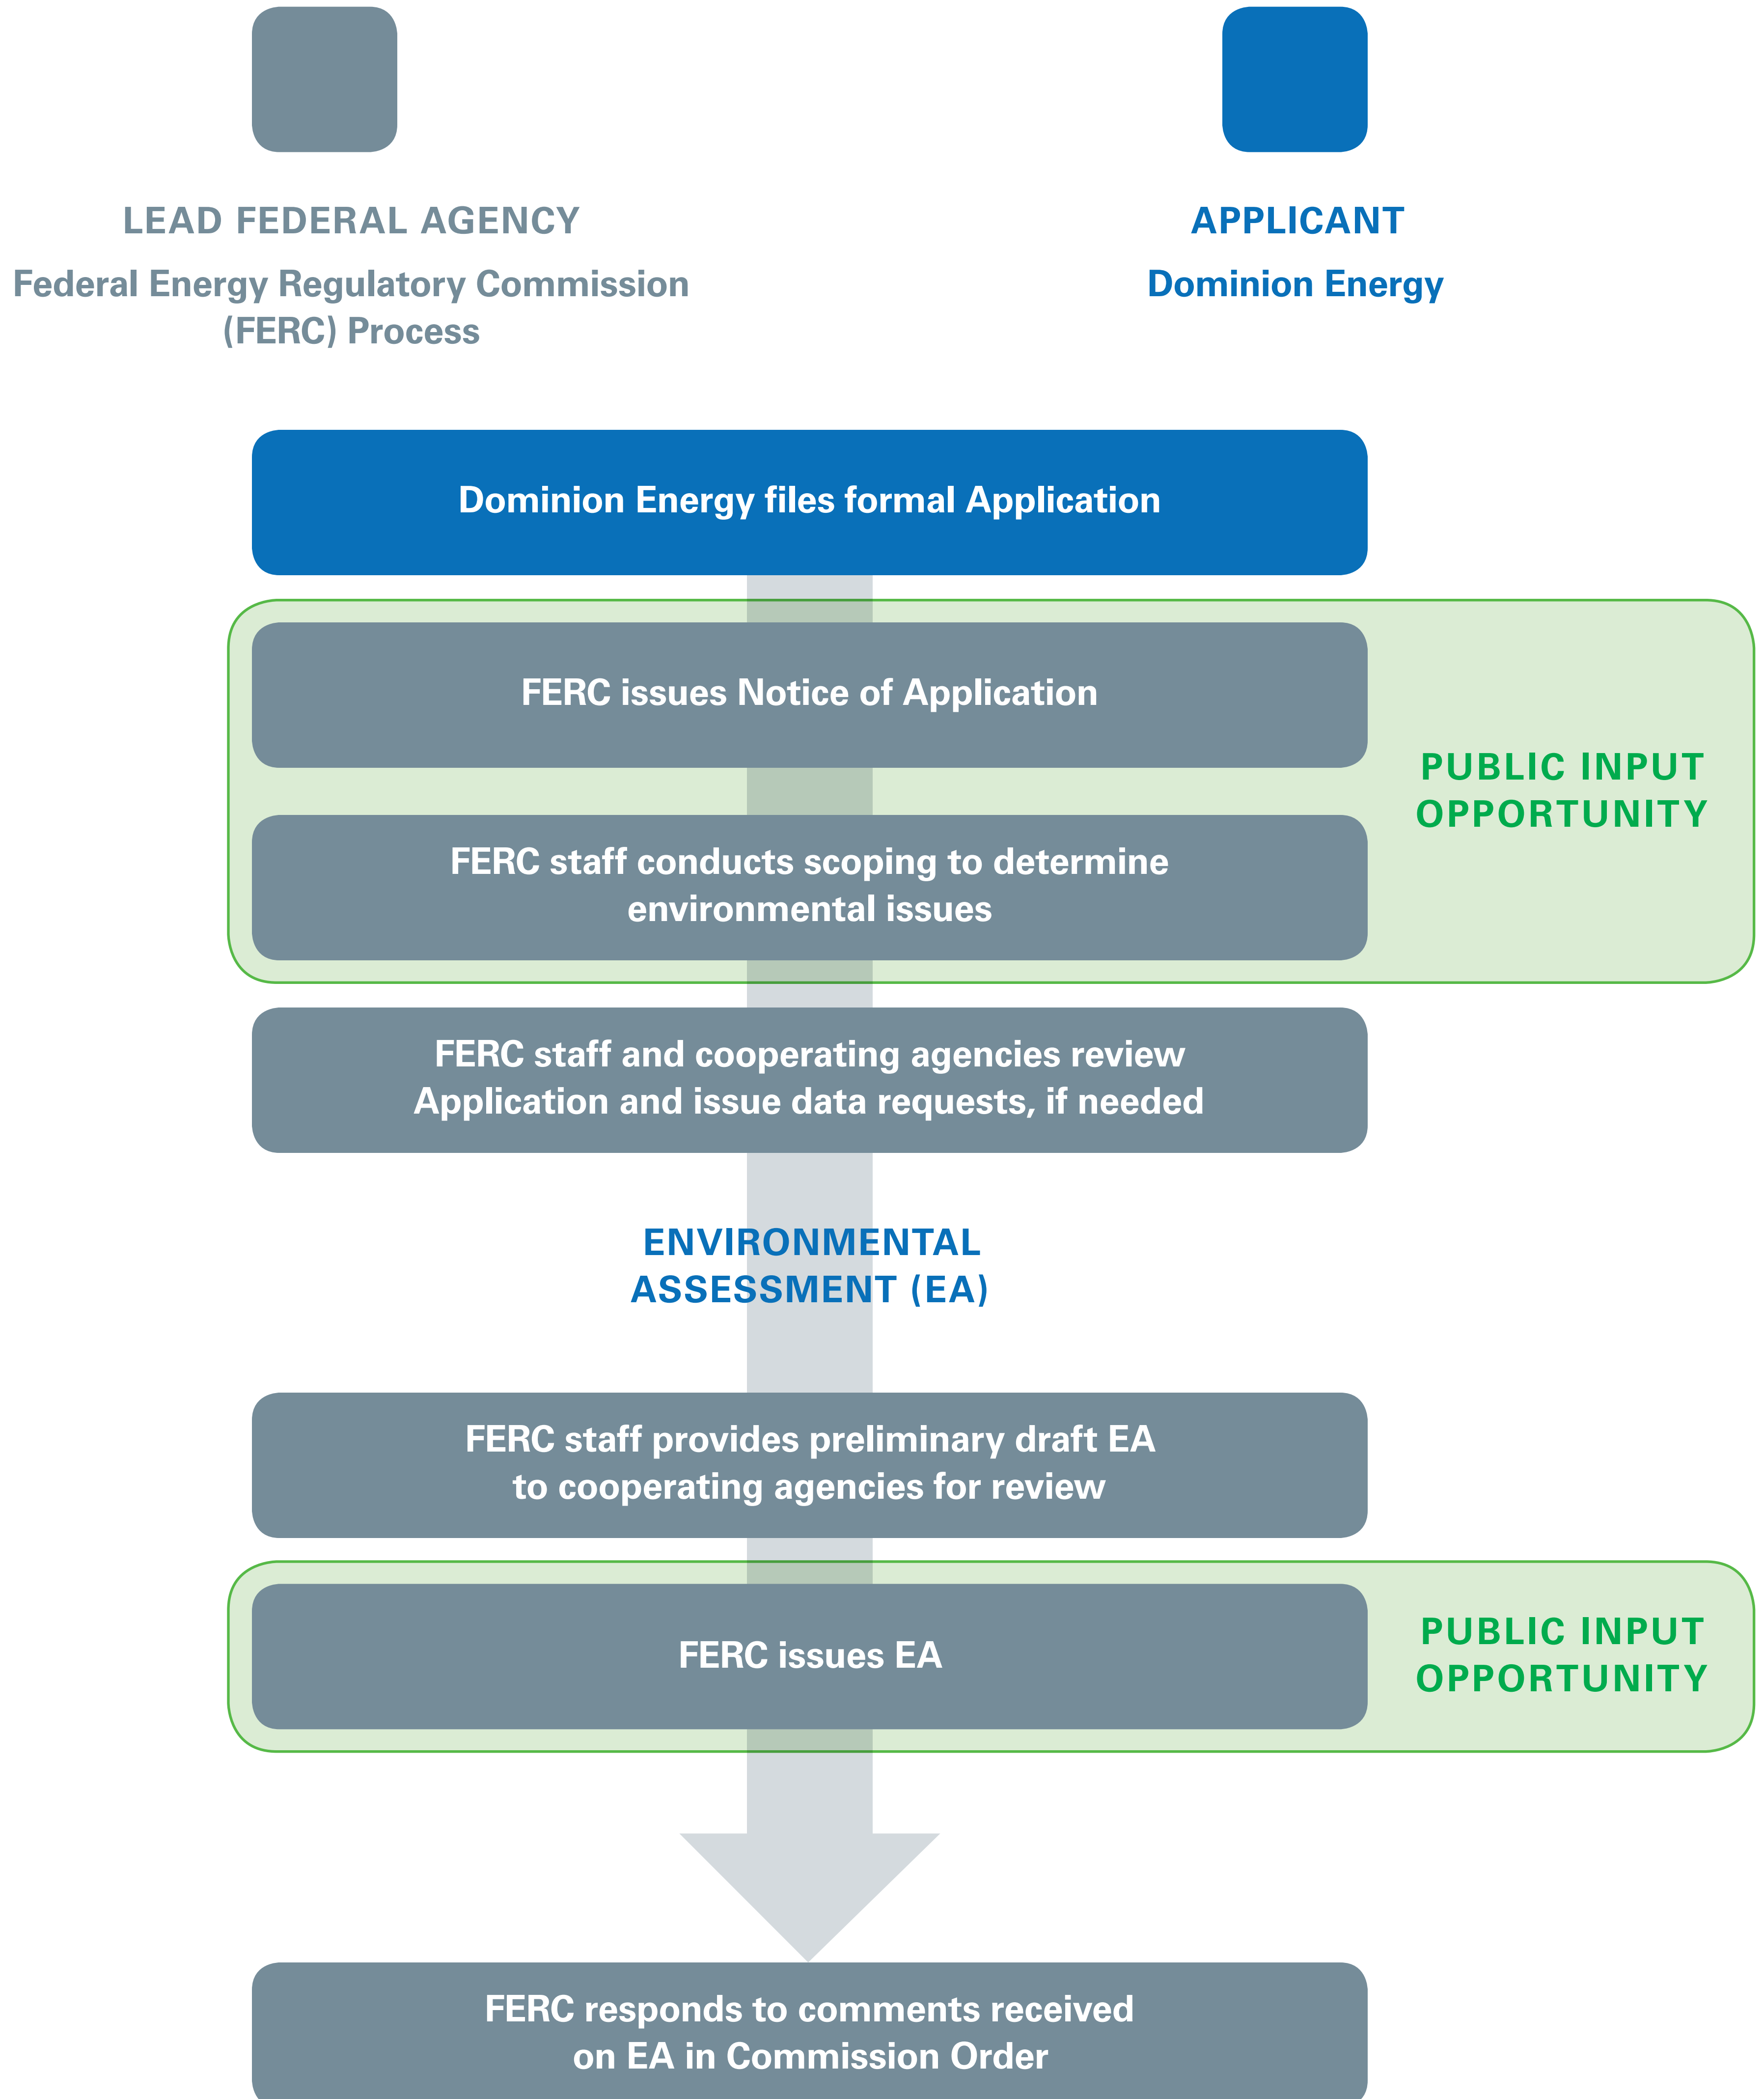

- Local permits, as necessary and applicable

Lawrence County, Pennsylvania

- Local permits, as necessary and applicable

COMMUNITY INVOLVEMENT

Federal Energy Regulatory Commission Environmental Review Process

Environmental Stewardship

- Dominion Energy Transmission is a member of EPA's Natural Gas STAR Program, a voluntary partnership between government and industry to reduce methane leakage and emissions to the environment, and has adopted some of its best practices to document and lower methane emissions at the company's facilities
- A strong track record of achieving sustained improvements in environmental performance and stewardship in air and water quality, carbon emissions, protection of sensitive habitats, waste reduction and energy conservation
- Experience and expertise in balancing the impact of energy infrastructure projects on environmental and cultural resources with the needs and expectations of our customers who depend on energy-related services
- Through the FERC process, potential environmental and cultural impacts will be identified and understood and appropriate mitigation strategies, techniques and best practices will be developed
- Dominion Energy is ranked #38 in Energy Intelligence's top 100 global "green" utilities in reducing CO2 emissions

- Dominion Energy's approach to the environment goes beyond a compliance mindset to a culture of stewardship. To find out more, visit Dominion Energy's Citizenship and Sustainability Report online at sustainability.DominionEnergy.com.
- In October 2014, Dominion Energy volunteers supported The Westmoreland Conservation District by providing help with landscaping maintenance at the Donahoe Center Campus in Greensburg, Pa.
