

Save Energy Video*

Did you know you have nearly 40 energy conservation programs available to choose from?

These programs can help you conserve energy and take advantage of savings at home.

And provide ways to help businesses save energy and lower costs too.

So far our energy conservation programs have reached over 750,000 customers.

Including more than 58,000 customers through our income and age-qualifying programs.

All told, over 9.3 million LED light bulbs have been discounted.

And more than 44,000 Energy Star appliances have been discounted in over 500 local participating retail stores – now that’s some major savings.

In addition, we’ve issued approximately \$247 million in rebates.

Including over 12,700 homes through the Home Energy Assessment program and over 3,900 rebates issued for small business energy saving measures.

That’s more than 6,900 gigawatt hours in program energy savings, which equates to enough energy to power about 600,000 homes.

We’re always working on ways to help our customers save energy, year after year.

And we’re just getting started.

Click the “Save Energy” button on DominionEnergy.com and enroll in a conservation program today!
