

DOMINION ENERGY PROPOSES EXPANSION AT IDYLWOOD SUBSTATION AT SHREVE ROAD

Summer 2018 UPDATE

OUR ENERGY CHALLENGE: The existing Idylwood Substation, situated at the corner of Shreve Road and Holly Manor Drive, was originally constructed in the late 1950s. The region has experienced tremendous growth since then, and rebuilding the substation will allow Dominion Energy to provide safer, more reliable electric service to homes and businesses in Fairfax County and the cities of Falls Church and Fairfax. The enhancements will also ensure Dominion Energy complies with mandatory North American Electric Reliability Corporation (NERC) reliability standards. As an area resident, this means fewer outages and shorter durations should an outage occur.

PROJECT SCOPE: Dominion Energy plans to utilize GIS (gas-insulated substation) technology to modernize the facility. This specialized equipment is used in areas where expansion of existing equipment is limited. See the map below.

The enhanced substation will have a solid perimeter wall and new landscaping that is consistent with community aesthetics and provides sound mitigation.

COMMUNITY ENGAGEMENT PLAN (partial listing):

Rev. 06/2018

| | |
|-----------------------------------|---|
| June/July 2013 | Outreach to State and Local Officials Began |
| July 2013 | Project Website Launched and Public Outreach Began |
| July/August 2013 | Community Outreach Initiated, Including Letters and Calls to Property Owner Phone Contacts |
| September 2013 | Communications Continued with Area Neighbors, Including Homeowners Associations (HOA) |
| Nov. 13, 2013 | Dominion Hosted Open House |
| Dec. 5, 2013 | Dominion Attended Meeting with Holly Crest HOA |
| Winter 2013/14 | Updated Project Communications Sent to Neighbor HOAs, Residents and Officials |
| Winter 2013/14 | Secondary Photo Simulations Created and Circulated to Neighbors |
| Feb. 7, 2014 | Notice of Plans to Submit Permit Application to Fairfax County Sent to Neighbors; Application Submitted for Local Approval to Construct |
| Feb. 18, 2014 | Follow-up Meeting Held with Holly Crest HOA |
| February 2014 | Local Distribution Work Communicated to Neighbors and Elected Officials |
| March 2014 | Additional Simulation Circulated to Neighbors Reflecting Fewer Backbone Structures |
| March 28, 2014 | Dominion Executive Meeting Held with Holly Crest HOA |
| April 2014 | Landscaping Committee Meeting Held to Discuss Vegetation and Planting Options |
| Summer 2014 | Refined Details of Local Distribution Work Communicated to Neighbors and Elected Officials |
| June 4, 2014 | Wall Committee Meeting Held to Discuss Color, Texture, Height of Proposed Wall |
| Aug. 13, 2014 | Follow-up Meeting Held with Holly Crest HOA and Wall Committee |
| Sep. 15, 2014 | Area Distribution Work Began to Underground Utility Line(s) <i>(This work is not contingent upon transmission project approval.)</i> |
| Nov. 12, 2014 | Dominion Hosted Community Update Meeting |
| December 2014/January 2015 | Local Hearings Scheduled – Planning Commission and Board of Supervisors |
| Winter 2015/Spring 2016 | Community Outreach Continued; Notification of Intent to Construct Sent to Neighbors |
| Summer 2022 | Target Date to Complete Substation Enhancements |
