

SCHEDULE CBAS
NON-RESIDENTIAL BUILDING AUTOMATION PROGRAM

I. PURPOSE

The Non-Residential Building Automation Program (“Program”) provides qualifying non-residential customers with incentives to install new building automation systems in facilities that do not have centralized controls or have an antiquated system requiring full replacement.

The Company will market the Program to controls contractors who design, install, and maintain fully functional building automation systems. Product lines include brands such as Carrier, Schneider Electric, Johnson Controls, Siemens, and Trane.

The Company, through its Program implementation vendor, will enroll qualifying contractors in the Program. A list of contractors enrolled in the Program will be provided on the vendor’s website. In addition, the Program will have a dedicated website to communicate Program details, identify available installation contractors, as applicable, and obtain incentive applications.

II. AVAILABILITY

The Program is voluntary and available to qualifying non-residential customers (customers in the Commercial, Public Authority and Industrial classes) and provides an incentive to install new building automation system programming. Non-residential customers who elect to opt-out of the Demand Side Management/Energy Efficiency Riders, as provided for in N.C.G.S. § 62-133.9(f), cannot participate in this Program.

III. INCENTIVE PAYMENT

The Program provides the eligible participating non-residential customer with an average one-time incentive of \$7,500 per participant. The average incentive may vary depending on the equipment installed and the associated energy savings associated with the new installation. Upon receipt of a completed Rebate Application, the Company, or its designated contractor will process the completed application, confirm or inspect the installation of the new equipment, and forward the incentive payment to the customer within 90 days, unless the customer requests the payment go to the contractor. Rebate applications must be submitted within 45 days of installation. The Company reserves the right to withhold any rebate payment until the customer has satisfactorily completed the application process.

A complete list of rebates by equipment type is available online at www.dominionenergy.com/savenowNC.
