

SCHEDULE CNR2
NON-RESIDENTIAL ENHANCED PRESCRIPTIVE PROGRAM

I. PURPOSE

The Non-Residential Enhanced Prescriptive Program (“Program”) provides qualifying non-residential customers with incentives for the installation of refrigeration, commercial kitchen equipment, HVAC improvements, and the maintenance and installation of other program specific, energy efficiency measures.

The Company, through its Program implementation vendor, will enroll qualifying contractors in the Program. A list of contractors enrolled in the Program will be provided on the vendor’s website. In addition, the Program will have a dedicated website to communicate Program details, identify available installation contractors, as applicable, and obtain incentive applications.

II. AVAILABILITY

The Program is voluntary and available to qualifying non-residential customers (customers in the Commercial, Public Authority and Industrial classes). The Program provides qualifying non-residential customers with incentives for the installation of various energy efficiency measures, including: food seal wrappers, EC motors for heating/cooling, heat pump pool cover, parking deck ventilation, ozone laundry, pool pump VSD, commercial dryers, guest room energy management system, duct testing and sealing, HVAC system tune-up, refrigeration, and kitchen appliances.

Non-residential customers who elect to opt-out of the Demand Side Management/Energy Efficiency Riders, as provided for in N.C.G.S. § 62-133.9(f), are not eligible to participate in this Program.

III. INCENTIVE PAYMENT

The Program provides the participant with an average one-time incentive to install energy efficiency measures valued at \$4,539 per new participant. The average incentive may vary depending on the energy efficiency measures installed and the energy savings associated with those measures.

Upon receipt of a completed Rebate Application, the Company or its designated contractor will process the completed application, confirm or inspect the installation of the new measures, and forward the incentive payment to the customer within 90 days, unless the customer requests the payment go to the contractor. Rebate applications must be submitted within 45 days of installation. The Company reserves the right to withhold any rebate payment until the customer has satisfactorily completed the application process.

A complete list of rebates by equipment type is available online at www.dominionenergy.com/savenowNC.
