June 4, 2021

Dear Neighbor:

Dominion Energy Virginia ("Dominion Energy") is preparing to file for a Special Exception Permit from Lancaster County for its proposed Merry Point Solar and Storage Facility. As a long-standing corporate citizen of Lancaster County, we want to take this opportunity to provide an overview of the project.

The Merry Point Solar and Storage Facility will be up to a 100 MW solar facility and will include up to an additional 50 MW of energy storage. The facility will be set back from Mary Ball Road (Route 3) and Courthouse Road in Lancaster County. This project is important to meeting the Commonwealth's and Dominion Energy's clean energy goals, while providing economic benefits to Lancaster County. The project will require approval from Lancaster County and the Virginia State Corporation Commission. Construction is anticipated to begin as soon as spring of 2023.

Dominion Energy is committed to keeping you informed of the Merry Point Solar and Storage project as it progresses. To that end, we are hosting an open house from 5 p.m. – 7 p.m. on July 1, 2021, at Lancaster High School (8815 Mary Ball Rd, Lancaster, VA 22503) to meet with you and your neighbors, provide a project overview, and to answer any questions. Additional information regarding this project is enclosed.

Dominion Energy looks forward to working with Lancaster County and the neighbors of the Merry Point Solar and Storage Facility as we begin this important project. Please contact Anita Powell (Anita.Powell@dominionenergy.com) at 804-921-1214 or Robin Lucey (Robin.L.Lucey@dominionenergy.com) at 804-212-5426 should you have any questions or concerns.

Sincerely,

A handwritten signature in black ink that reads "Anita Powell".
