1. The prospective figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historical Product Content Label the actual resource mix of the electricity you purchased. The historical figures reflect the power delivered to Dominion Energy Green Power's customers in 2017.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years. This product may include generation from a facility that is approved under a strict set of criteria as repowered or a facility that is approved for extended use by Green-e Energy.
