Four Rivers-Fredericksburg Project

DOMINION VIRGINIA POWER plans to rebuild an existing transmission line that extends approximately 34 miles from the Four Rivers Substation in Hanover County to the Fredericksburg Substation in the City of Fredericksburg.

The line, constructed in 1957, must be rebuilt to ensure its continued safe and reliable operation. All of the work will occur within the existing right of way.

Stop by our open house events to learn more about what this project will mean for you and the community. We want to share our plans and answer your questions.
