1.0 POST-CLOSURE CARE REQUIREMENT

Possum Point Power Station's (Station) inactive Coal Combustion Residuals (CCR) surface impoundment Pond E was closed by removal of CCR pursuant to 40 CFR 257.102(c) and the Station's Closure Plan for this pond. Consistent with the requirements of 40 CFR §257.104(a)(2) for post-closure care of CCR surface impoundments, a Post-Closure Care Plan is not required for a surface impoundment that closed through CCR removal under 40 CFR 257.102(c). Therefore, a Post-Closure Care Plan for Pond E has not been developed.

Established in 1960, Golder Associates is a global, employee-owned organization that helps clients find sustainable solutions to the challenges of finite resources, energy and water supply and management, waste management, urbanization, and climate change. We provide a wide range of independent consulting, design, and construction services in our specialist areas of earth, environment, and energy. By building strong relationships and meeting the needs of clients, our people have created one of the most trusted professional services organizations in the world.
